

Simple Gifts--October 1

Each and every day God blesses us with so many things that we just take for granted. We awake each and every day with all of His blessings mostly unaware to us, or should I say; unbeknown to us. We are His children and we are recipients of the covenant that He made with our ancestors in the beginning of time. He guaranteed to give His followers a land full of milk and honey if we just follow His teachings and obey His word. All the gifts we are worthy of, and some of those gifts that we are unworthy of. Just because we are His children.

Even when we are truly not worthy of His gifts, He still blesses us with them. Every day in God's world is a blessed gift. Whether it is the air we breathe or the flowers and the trees. The birds : in their joyous song of spring. The animals: in the wild we see each and every day. All these gifts we take for granted which are signs of God's glorious gifts to humankind. Somehow, we tend to forget that tomorrow is not guaranteed to us. So, every morning when we awake; a most precious gift is given to us; the gift of life.

God grants all these wonders for His only asking for acknowledgement, and obedience. All this for the simple use uncommon to most; Thank you! Thank for all you do!

people
praise,
of words
you God

Prayer: O' mighty and ever living God; I give you thanks for just waking me up this morning and giving me a reasonable sense of mind, and for breathing life into my mind, body and soul. I give you thanks and praise. Also, thank you for the opportunity to better serve you today, and everyday that I have your breath of life. Amen.
